

# GPA

GPA stands for “Grade Point Average.” It is a numerical average of your report card grades. By knowing a student’s grade point average, you know how high the student’s grades are. Having a high GPA is extremely important for college acceptance. PE is not counted by colleges when determining a student’s GPA.

Grade point average is determined by adding the number of grade points a student earns together and dividing by the number of grades.

Grades are worth the following number of grade points:

Regular Classes	
Grade	Points
A	4
B	3
C	2
D	1
F	0

AP Classes	
Grade	Points
A	5
B	4
C	3
D	1
F	0

A student with these grades:

	Grade	Points
History	A	4
Math	B	3
English	A	4
Science	B	3
Art	A	4

would have a 3.6 grade point average
